For training and advice on how to use e-resources or to register for an NHS Wales LibrarySearch account please contact your local library:

September 2018

Access using an NHS Wales networked device: Go to the **e-Library intranet site** and click on an e-resource or start your search in the LibrarySearch bar. You won't need to log-in to access any e-resources.

Access from home or public Wi-Fi: Go to the **e-Library internet site** and click on an e-resource and enter your OpenAthens login.

_____ OR _____

Search in the LibrarySearch bar, click on the e-resource and enter your NHS Wales LibrarySearch login and then your OpenAthens login.

Contact **your local NHS Wales Library** for a LibrarySearch login.

Register for an **OpenAthens account**
register.openathens.net/wales.nhs.uk/register

new and improved
eLibrary for Health
 NHS Wales Digital Source for Knowledge & Evidence

ABOUT

The **NHS Wales e-Library for Health** is available to all NHS Wales employees, contract holders, trainees, trainers and students on placement. It supports effective healthcare delivery by providing high quality, evidence-based health care information.

DATABASES

Access to a range of databases including:

MEDLINE, Embase, PsycINFO, HMIC, AMED, EMCare, British Nursing Database, Cochrane Library, TRAVAX, PEDro and Social Care Online.

e-JOURNALS

Access to **2,300+ full text subscription** and **2,200+ OpenAccess health and medicine e-Journals** including titles from **BMJ, Elsevier, Emerald, JAMA, Karger, LWW, Mark Allen, Nature, OUP, RCNi, Springer, Taylor & Francis, Wiley** and more...

TRAINING & SUPPORT

You can find **training guides** and **videos** on the e-Library websites or contact your local NHS Wales Library for training, advice and support using the e-resources.

GUIDELINES

Find up to date nursing clinical procedures from the **Royal Marsden Manual of Clinical Nursing Procedures Online** and **iRefer** radiological investigation guidelines.

MEDICINES INFORMATION

Access medicines information from **Micromedex** and **British National Formulary (BNF and BNFc)**. You can also download the **BNF** apps on to your device.

POINT OF CARE TOOLS

Find the latest evidence-based research, guidelines, opinion and patient information leaflets to support diagnosis, prognosis, treatment and prevention using **BMJ Best Practice** and **Dynamed Plus**.

e-LEARNING

Earn CPD and CME points by accessing continuing medical education e-learning from **BMJ Learning**. Modules are high-quality, evidence-based, and cover a wide range of clinical topics and professional skills.

CLINICALKEY AND CLINICALKEY NURSING

Access **e-journals, e-books, clinical overviews, procedures** and **drug monographs** from Elsevier. The clinical search engine makes it easy for healthcare professionals to find and apply relevant knowledge to help them make better decisions.
